Soft Skills: Team Management, Leadership, Time Management.

PROJECTS

Shastri IAS Web application(live project in progress)   **May 2024**
- I am working on 3 tier web application which is fully responsive 6 page coaching web application this includes Home, About, Blog , Admin , FAQs pages. and payment page separately. The layout is user-friendly and visually appealing, ensuring easy navigation and an enjoyable browsing experience.This site has many features such as :-
  * Filtering notes based on Notes tittle.
  * Routing for navigating one page to another page.
  * view PDF Blog writing and publishing option.
  * Integration of razorpay for payments.
  * Separate Admin page only for Admin use.
  * Use carousel for banners and marquee for showing Important notice.

To-Do Application | *MERN Stack*   **July 2024**
- Created a To-Do application where users can manage their tasks. In this project, I used a REST API to handle the communication between the front end and the back end. The server was built using NodeJS, and MongoDB was used as the database to store the task information. The application performs basic operations like creating new tasks, reading or viewing existing tasks, updating tasks, and deleting tasks.(CRUD operations Create, Read, Update, Delete).

TRAINING AND INTERNSHIP

UI Full Stack Development Course   **April 2024 - Present**

Naresh i Technologies   *Hyderabad, Telangana*

Industrial Automation Specialist   **May 2023 - August 2023**

Center for Research and Industrial Staff Performance(CRISP)   *Bhopal, Madhyapradesh*
   * It was a government funded job oriented training under MAPCET at CRISP bhopal, in this training I learned about ECR, PLC, relays, switch and proximity sensors.
