Bachelor of Technology

Samrat Ashok Technological Institute
2019-2023
ECE | CGPA:-8.14

NIKHIL AHIRWAR

Software Developer

ABOUT

Full Stack Developer with 2 years of experience developing scalable web and mobile applications. Proficient in React.js, React Native, Node.js, MongoDB, REST APIs, AWS, Firebase, and Google Cloud.

PROFESSIONAL EXPERIENCE & PROJECTS

Software Developer

Jan 2025 – Present

Alogicdata Bhopal, Madhya Pradesh

Projects Delivered:

KORA - Laundry Service Platform (Freelancing / In Progress)

- Tech Stack: React Native (Expo), Node.js/Express, MongoDB, Firebase Cloud Messaging, Google Cloud Console
- Developing a comprehensive platform with three specialized apps: Customer (order tracking), Rider (pickup/delivery management), and Washerman (order processing)
- Integrated Google Maps API for location tracking and route optimization; implemented FCM for real-time notifications
- Utilized AI tools (ChatGPT, Claude, Lovable.ai) to accelerate development

DG Wardrobe - Digital Wardrobe Social Platform (Completed)

- Tech Stack: React Native (Expo) + TypeScript, Node.js/Express, MongoDB Atlas, JWT, AWS
- Built a fashion social media platform with upload/share/discover features, likes, comments, and saves
- Implemented a premium subscription model with tiered access control for exclusive content
- Developed Google login, JWT-based role separation (admin/user), and a comprehensive admin panel
- Deployed on AWS with environment-based configs for dev/preview/production builds

Learning Management System (Moodle-LMS) (Completed)

- Tech Stack: React.js, Node.js/Express, MongoDB, AWS EC2
- Built modular LMS with three role-based dashboards (admin, regional manager, user) with distinct permissions and analytics
- Implemented guest access with email verification and dynamic course content management with user progress tracking
- Deployed on AWS EC2 for production testing; managed environment configs for dev/staging builds

Additional Responsibilities:

- Building RESTful APIs with Node.js/Express and implementing JWT-based authentication
- Deploying applications on AWS (EC2, S3), Vercel, and Netlify for production
- Working on HPE project - developing interactive e-learning courses using MIDAS framework and the Grommet component library
- Ensuring SCORM compliance and testing courses on SCORM Cloud and various LMS platforms

Full Stack Developer Intern

June 2024 – Oct 2024

Jobbminar Consultants Pvt Ltd. Hyderabad

Projects Delivered:

Sailorswave - Merchant Navy Platform (Completed)

- Tech Stack: React.js, Node.js/Express, MongoDB
- Developed a comprehensive admin dashboard for managing merchant navy applications and user data
- Built responsive frontend components including hero section, header, footer, and application forms
- Created a user submission system for collecting and processing candidate details for merchant navy opportunities
